

IN THE CLAIMS:

Please cancel claims 1-25 without prejudice or disclaimer, and add new claim 26. After the entry of the instant amendment, the pending claims will be:

26. (new) A multisignal device configured to be mounted on a vehicle, the multisignal device comprising:

a light emitter beam configured to emit a light signal in a progressive and controlled manner according to user requirements or an automatic response to events, the light emitter being further configured to emit the signal at a front and/or at a side, the light emitter beam including a light source with printed circuits having light emitting diodes inserted therein.
